## FREE RANGE LAYER PELLETS

Peckish Free Range Layer Pellets have been specifically formulated for all breeds of laying hens from around 18 weeks old. Peckish Free Range Layer Pellets are a complete ration, featuring balanced levels of protein and energy to maintain a healthy bird and ensure quality egg production.

For a better performance, higher protein feed, we recommend Peckish Performance Layer Pellets.

### Feeding Instructions:

To be fed ad-lib from 18-20 weeks old, or about 10-14 days prior to commencement of lay. Egg production usually begins at around 20-22 weeks of age.

A recommended minimum is upward of 110 grams per bird per day.

### Ingredients:

Selected from: Wheat, Barley, Canola Meal, Limestone, Oats, Legumes, Vitamin & Mineral Premix.
