SMALL BIRD BLEND

Peckish Small Bird blend is a mix of all-natural micro-pellets containing real vegetables and herbs with the traditional seeds that birds love for added variety and to meet the nutritional requirements of smaller birds like Budgies, Finches and Canaries. Made in Australia, all ingredients have been sourced with their nutrition and enticing taste in mind. Filled with all-natural greens like alfalfa, kale and parsley, birds will benefit from the high levels of protein, calcium and iron. Meanwhile, the vegetable micro-pellets are made with real carrots for a natural source of Vitamin A. Further enhanced with our specially designed VITA-ENRICH Pellet, the extra boost of added vitamins and minerals helps to encourage optimum health in small birds.
