Peckish Small Parrot is a premium blend of all-natural micro-pellets containing real vegetables and greens, real dried fruits and vegetables, and nuts with the traditional seeds that birds love for added variety and to meet the nutritional requirements of small parrots like Lovebirds, Cockatiels and Rosellas.

Filled with all-natural greens like alfalfa, kale and parsley, birds will benefit from the high levels of protein, calcium and iron. The addition of nuts, dried fruits and vegetables provide a natural vitamin and mineral boost, whilst also enticing your bird to eat. Meanwhile, the fruit micro-pellets are made with real blueberries, black currant & blackberries for a sweet taste and extra antioxidants, while the vegetable micro-pellets are made with real carrots for a natural source of Vitamin A. Further enhanced with our specially designed VITA-ENRICH Pellet, the extra boost of vitamins and minerals helps to encourage optimum health in small parrots.
